

**ATUL DRUG HOUSE**

**Advanced Protection through Innovation**  
**DISPOSABLE DRAPES AND PACKS**

Atul Drug House was established in 1953 in Mumbai, India and is engaged in the manufacturing and distribution of Pharmaceutical specialities and Surgical disposable patient care products.

We also offer Surgical drapes and packs and the products range caters to the increasing needs of the medical fraternity and can be customised to the requirements of our clients.

Sterile draping is an important feature of effective infection prophylaxis in the operation theater.

We at ADH are committed to the ongoing development of innovative medical products and upgrading of current medical systems and devices for further advancement of the medical profession.

Our motto is continuous improvement to adopt International Quality standards for Medico satisfaction through teamwork.

Keeping up with the trend of disposable needs, we are ready for any suggestions from you, we also assure you our tailormade requirements.

If for any reason our products do not meet your expectations, please let us know your comments. Your inputs will result in concerted efforts on our part to meet your requirements. Our goal is to provide quality products that completely meet your real time needs time after time.

# INCISE DRAPES

# ATUL DRUG HOUSE

## DESCRIPTION

### Theatre Incise Drape.

Incise Drape is a transparent, adhesive polyurethane film which allows the skin to breath, so preventing moisture buildup under the drape. As a result adheres to the surrounding skin throughout long surgical operations and more importantly, right up to the wound edge.

## FEATURES

- Adheres right up to wound edge.
- Transparent non-glare surface.
- Thin but extremely strong.
- Conformable and elastic.
- Provides a sterile working field around the operation site.
- Holds drapes securely in place.
- Each PG-film Incise Drape is sterile and individually wrapped in peel open pouch.
- Sterilization is by ethylene oxide
- Bacteria and water proof film.

## INDICATIONS

### All types of surgery :

- Orthopaedic
- Neuro Surgery
- Major Abdominal
- Plastic Surgery
- Cardio Thoracic
- Ophthalmic
- Pediatric

## BENEFITS

- **Adheres right up to wound edge** : The drape will provide protection from laterally migrating bacteria because it stays in place even throughout major operations involving prolonged retraction of wound edges.
- **Transparent non-glare surface** : The incision site is clearly visible without glare.
- **Thin but extremely strong** : Primewear Incise Drape is tear resistant, but can be cleanly cut with a scalpel.
- **Conformable and elastic** : Primewear Incise Drape provides a sterile working field, on to which internal organs may be placed with out fear of contamination.

## SURGICAL GOWN

# ATUL DRUG HOUSE

**Surgical Gown**

**Reinforced Surgical Gown**

**Wraparound Surgical Gown**

**Wraparound Reinforced Surgical Gown**

### Material Types

- 1) SMMS fabrics is composed of two layers of spun bonded fabric and two layers of Melt blown fabric. With good tensile strength, high filtration and remarkable softness. It prevent and isolate dust particles, alcohol, blood, bacteria and virus.
- 2) Spunless non-woven material offer very high purity because they contain no binders or adhesive. The absence of chemical and thermal binding also produces superior softness, and breathable material. The fabrics treated to repel liquids and an excellent shield from bacteria & splashes. The fabrics do not produce allergenic or toxic response in human skin. The fabrics has superior resistance to tearing and maintains approximately 75% of its strength when wet.
- 3) Micro care fabric advanced technology is a layer of strong, thin microporous breathable film between two soft, cloth-like fabric layers, to allow vapour to pass easily through while keeping you cool and providing protection from blood and body fluids. Micro care offers excellent barrier against viruses causing infectious diseases. It's Level-IV Gown.
